Ralph T. Holman, *Funding*

September 1, 1977

## PROGRAM COMMITTEE

Edwin Bierman, *Chairman*  
George J. Popják, 1979  
John Kane, 1980

Dr. Robert C. Hockett  
Research Director  
The Council for Tobacco Research  
110 East 59th Street  
New York, New York 10022

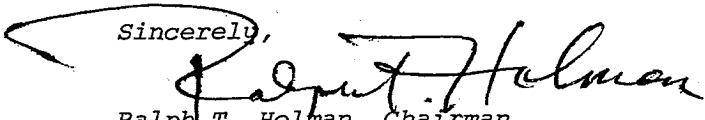

Dear Dr. Hockett:

During the 1977 Deuel Conference held at Highlands Inn in Carmel, California in March of this year, the Advisory Board of the Conference met and made general plans for the coming year. The Program Committee has recently met again and has a tentative program for the 1978 Deuel Conference. We wish to take this opportunity to inform you and your company, as sponsor of the 1977 Conference, of the plans for 1978.

The subject matter for the Conference will center around chylomicrons and lipoprotein metabolism. Attached you will find a copy of the tentative program for the 1978 Conference, and a copy of the 1977 final program. In addition, I have included a history of the Deuel Conference and its activities for your general information.

The 1978 Deuel Conference will begin Wednesday evening, March 15, and run through Saturday noon, March 18, 1978. The meeting will be held in Asilomar, which is near Monterey, California. If the subject matter of the Conference is of interest to your organization, we again solicit your support and representation at the Conference. If your organization subscribes \$1,000 or more to the support of the Conference, it is entitled to send one or two representatives. We hope that we can have your support in 1978. If you have questions, we shall be very happy to provide more information.

Sincerely,

  
Ralph T. Holman, *Chairman*  
Funding Committee
